WORK EXPERIENCE

Paylocity **Remote**
Software Engineer *Jan 2020 – Present*

- Worked in a remote agile environment to develop web applications utilizing C#, .NET Core, React with Redux, and SQL Server Management Studio
- Responsible for the full-stack development, implementation, testing, and maintenance of features across our platform
- Actively involved in technical designs, hands-on coding, unit testing, performance tuning, maintenance, test automation, deploys and upgrades
- Worked directly with Project Managers, User Experience Engineers, Software Test Engineers, and Business Stakeholders and customers to address specific needs from scoping and planning to development and maintenance

Paylocity **Boise, ID**
Software Engineer Intern *May 2019 – Aug 2019*

- Worked with a small team to improve the user experience utilizing C#, .NET Core, React with Redux
- Developed front-end features, added unit tests for existing code, and fixed bugs throughout the suite
- Worked directly with Project Managers and User Experience Engineers to implement easy-to-use and innovative solutions

MDU Resources Group, Inc **Boise, ID**
Software Developer Intern *May 2018 – Sep 2018*

- Developed and maintained user interfaces for websites and web application
- Interacted with RESTful APIs and formats (JSON, XML)
- Designed and developed responsive design websites

Projects

Summit Stats IOS *March 2021 – Present*
A mobile application for sharing your days skiing and snowboarding during the winter season with friends and family

- Designed and developed an iOS app from scratch using React Native with Expo
- Built, shipped, and hosted the application using AWS Amplify
- Utilized AWS services including Auth, API, S3, and Lambda throughout the application to serve content

EDUCATION

Boise State University **Boise, ID**
BS Computer Science *Aug 2015 – Dec 2019*
